Caverion receives acclaim for excellent IR website

Caverion's investor website has been awarded as the second-best among Finnish Mid-Cap listed companies by The Finnish Foundation for Share Promotion and The Finnish Society of Financial Analysts. The competition organised since 1999 annually analyses the investor websites and investor communications for all the Finnish listed companies.

Investor pages were evaluated for their usability, visual layout; and how strategy, growth and profitability were presented, how financial targets and past performance were described and how the use of capital and operational risks were explained, among others. The information must be fast and readily available on the website.

“We are extremely delighted and appreciate this recognition by the jury. Over the past years we have focused on the continuous development of our website and its investors section to serve our investors even better. Now our work has been noted and I thank our knowledgeable team for the joint achievement,” says **Milena Hægström**, Head of IR at Caverion.
