

## Caverion wins a technical installation project for a new Scandic hotel in Copenhagen, Denmark

Caverion Corporation Investor news 30 September 2019 at 1.00 p.m. EEST

### Caverion wins a technical installation project for a new Scandic hotel in Copenhagen, Denmark

Caverion has signed an agreement with construction company MBG Entreprisè A/S on the delivery of technical installations for a new Scandic hotel in Copenhagen, Denmark. Caverion will be responsible for the technical disciplines of Heating & Sanitation, Electricity, and Security, including sprinklers and access control. The building is owned by ATP Real Estate, which is a large real estate investor in Denmark. The value of the agreement is not disclosed.

“This is a special building to renovate from offices into a hotel and it is very exciting to build a new hotel in the centre of Copenhagen. We are looking forward to close cooperation with Caverion in this project,” says **Mikkel Birch Gormsen**, CEO of MBG Entreprisè A/S.

The 100-room Scandic hotel will be converted from an office building. It is located in the centre of Copenhagen near Nørreport Station, which is a central traffic hub in Copenhagen. The hotel will have a design inspired by boutique hotels and house a restaurant and a sky bar with views of the city.

“We are proud to be chosen to this project and are excited to participate in the renovation of a very centrally located building. The logistic challenges will be significant, but we are ready to meet them with our strong collaboration with MBG Entreprisè A/S and the teams of other suppliers,” says **Carsten Sørensen**, Executive Vice President, Caverion Denmark.

The project in the 3,000 m<sup>2</sup> building has already started and Caverion’s work will be completed in November 2020. Caverion will deliver the project according to DGNB certification (silver), which is a sustainability qualification for both materials and professional deliveries. The hotel is scheduled to be opened by the end of the year 2020.
