Caverion and AstraZeneca sign a Managed Services agreement covering two pharmaceutical facilities in Sweden

Caverion and AstraZeneca, a global innovation-driven biopharmaceutical company, sign a Services agreement covering AstraZeneca's research facility in Gothenburg and production facility in Södertälje, Sweden. The scope of the agreement includes disciplines Automation, Security & Safety, Heating & Sanitation, Cooling and Electricity. The value of the contract is not disclosed.

The agreement is based on the Vested model, and the common goals are set together with the customer.

"The collaboration between AstraZeneca and Caverion was established in 2009. The new agreement has been developed in accordance with the Vested methodology, which gives us the opportunity to take the partnership to the next level with strategic objectives such as high level of customer satisfaction, employee engagement, accessibility, security, environmental considerations and cost control," says **Björn Kullman**, Head of F.E.M, AstraZeneca.

"Our goal is to continue offering an excellent customer experience. We are always looking for the best possible ways to support our customers in their everyday operations. As in all pharma related facilities, we at Caverion know how to keep the sites in good operational condition. This will of course be our top priority. Caverion's know-how will secure AstraZeneca's operational performance, energy efficiency and sustained property value," says **Klas Tocklin**, CEO of Division Sweden at Caverion.

The total floor area included in the new agreement is estimated at 775.000 m².

AstraZeneca belongs to Caverion's industrial client segment. [Read more about our services to industry.](#)
